

JTorX - Feature #179

option to apply angelic completion to model?

01 Oct 2009 13:15 - Axel Belinfante

Status:	Closed	Start date:	01 Oct 2009

Target version:	1.3.0		
Description			
add toggle button to do angelic completion to model, to avoid having to use Utraces (which costs testing power)			
would be nice to have spec and some impl mutants that demo (exploit) effect of using straces, utrances, angelic completion			

History

#1 - 18 Jan 2010 10:38 - Axel Belinfante

- % Done changed from 0 to 90

implemented in commit:042ce5400a578517f44de3091a18f9d339fc0545, and used when showing/doing simulation of iocoChecker failure trace in model-as-sut;

no (g)ui yet to be able to use it for testing.

#2 - 19 Jan 2010 11:41 - Axel Belinfante

- Status changed from New to Closed

- % Done changed from 90 to 100

added gui support for it in commit:11a2e3317d946311e727f05bdb49b5046af5f8d2

#3 - 19 Jan 2010 11:42 - Axel Belinfante

- Target version set to 1.3.0
